

PRESS RELEASE

Intimate wet wipes launched under the global EcoVag® brand

The intimate wet wipes expand the current EcoVag® line of premium and sustainable products; developed specifically for women's intimate care and comfort.

EcoVag® intimate wipes are based on a patented formulation that gently cleanses sensitive skin and provides intimate freshness. The wipes are dermatologically tested, free of perfume and parabens, and pH adjusted to respect the natural and delicate balance of the intimate area.

Besides the wet wipes, the EcoVag® range includes a patented and clinically documented natural probiotic product to treat and prevent vaginal discomfort and an intimate wash for daily use to provide intimate freshness and natural protection of the intimate area.

EcoVag® intimate wipes retail in a handy and resealable 15 pcs pack size.
